Electronic FDIC Reporting Solution

# Call Report Pro

## Electronic FDIC Reporting Solution

### Fast, Accurate, and Comprehensive Call Report Software

Call Report Pro offers the industry's best call reporting software solution that includes a complete reporting package, generating the peer and board reports management wants to see. With over 30 years of experience in regulatory reporting, we work closely with regulatory agencies to ensure that our software is up to date and meets all regulatory requirements. Our premier software includes all of the FDIC's criteria and edit checks – plus our own – to ensure accurate filing.

This easy-to-use software makes it simple for anyone on staff to prepare their FFIEC 031, FFIEC 041, or FFIEC 051 Call Report faster and more accurately. The software allows users to map directly from the general ledger, or other data files, into the Call Report to save time and ensure accuracy.

#### What It Does

- Imports data directly from your general ledger or other data files via an easy-to-use import and mapping tool for SilverLake System®, CIF 20/20®, or Core Director®, reducing filing preparation time and risk of errors.
- Extensive built-in FDIC and Jack Henry edit checks that catch data entry errors and alert users of potential problems.
- Offers a comprehensive reporting package that provides presentation-quality peer and board reports for management.
- Contains a built-in RC-R Worksheet to assist in completing Schedule RC-R.
- Displays historical Call Report data onscreen for easy reference, as well as the FDIC's line-item instructions, an area to input personal notes, and the ability to make last-minute adjustments.
- Provides seamless connectivity and communication with the Central Data Repository (CDR) allowing for a fast, secure, and easy transmission process.
- Contains screens designed to look like the printed Call Report being created.
- Provides the option to prepare the Annual Disclosure Statement and Summary of Deposits with our Branch Deposit Reporting Pro product.

#### What It Does For Me

- Prepares Call Reports faster and more accurately.
- Saves time and expenses relative to Call Report preparation and corrections.
- Includes a secure, efficient transmission process.
- Simplifies data comparison with detailed peer and board reports.
- Displays eight quarters of previous call report data for quick historical analysis.
- Provides software download capability, documentation, and more online.
